Dear Henry:

In view of the fact that our field team will be larger than before your idea of bringing a rental car to Makarska ~~will be~~ is very welcome; I believe that a Volkswagen microbus would be the best choice.

You will get your girl for recording blood pressures. This time it will not be Vanja (neither such a type) but otherwise a very decent and reliable person. Incidentally, Vanja has left for Switzerland trying to find a job abroad.

About your hotel reservation. Do you want a double room (small apartment in the main building) or just a single room?

The follow-up clinical forms were delivered to me from the customs just a few days ago. So the simplified non-clinical forms should be sent to us at your earliest convenience. Further, we would need Uristix paper as well. What about ECG machines? Is Menotti bringing one with him? In this case the paper should be brought too. Otherwise we have enough recording paper for our Elema machine.

With best regards,

Sincerely,

*Ratko*

(Ratko Buzina)

*for Dalmatian Slovenia*

*W. Pearson me This was sent.*

*B.*

*I did send this - put it  
between the layers of clinical forms.  
He will find them.*
