Professor Flaminio Fidanza
Istituto di Scienza dell'Alimentazione
Cassala Postale 333
Perugia, Italy

Dear Flaminio:

        We are editing and converting to IBM cards.

        We have found generally matching values between Minn.
Form 2 and the enclosed typed list for 3 sec. Vit. Cap.

        By exclusion, we assume all other values on form 2 are
3/4 sec. timed V. Cap.  Is this true?  Are we sure it is not 1 sec.
timed V. Cap. ?

|              | Minn. Form | | Fidanza Tab. |
|              | 3/4 sec. | 3 sec. | 3 sec. |
|--------------|----------|--------|--------------|
| Montegiorgio | (22)     | 44     | 44           |
| Crevalcore   | 25       |        | 36           |

                                Regards,

                                Henry Blackburn, M. D.
