Dr. Ivan Mohacek  
Interna Klinika, Rebro  
Zagreb, Yugoslavia

Dear Ivica:

Ancel and I were both very sorry not to attend your Korcela meeting. We weren't quite sure whether you were being your usual courteous self, or whether it would have been some real moral support to have us there in your epidemiological presentations. At any rate, I had to get back to Minneapolis on the 28th of April.

Dr. Ivancic told me a little of your new and important responsibilities. Good luck. I'm also anxious to see your write-ups of the Yugoslavian data, and hope you can bring the material to publication soon.

I plan to go to Athens and Crete and will let you know the dates. I understand you will be there.

Regards,

Henry Blackburn, M. D.
