COIRS - Perry

June 15, 1982

TO: Rebecca Mullis and Cheryl Perry
FROM: Henry Blackburn
SUBJECT: Dairy Council Issue

Is the Dairy Council issue closed? I'm still hoping J.H. doesn't "issue" the 800 pages of photocopied material she was provided by NIH. As far as I'm concerned, I see no further reason for, or likelihood of, profitable collaboration with Janet Herman or the Dairy Council. You must realize that she would be put in a totally unacceptable position in her own organization to advocate lowfat milk products for kids. How could she?

If you plan further activities, please let me know of their design and nature.

Thanks.
