Dear Doctor Joosens:

Thank you for your nice note and the reprints. We were delighted that you could come to Anacapri and join on the excursion to our home in Pioppi. We only regret that the time was so short, especially that last Saturday. Some day we hope you and your wife can find your way down to our remote corner of Italy and relax a bit in that rural setting with the sea below and the mountains behind. I recall our too-hasty visit to your home in Leuven a good many years ago.

Mario Mancini and his colleagues did a wonderful job organizing both the scientific and social parts of the meetings. I think all enjoyed it as you did.

We shall be in Minneapolis until the end of August before going back to our "Minnelea." Aside from going to the symposium at Lugano October 1-3 we'll be at Minnelea until late in November as plans now stand.

Margaret joins in sending you best wishes.

Sincerely,

Ancel Keys
