Professor Bernard Metz
Centre d'Etudes Bioclimatiques
21, rue Becquerel
67 - Strasbourg 3, France

Dear Bernard:

We were sorry you were unable to join the party at Anacapri. The three days of sessions were very good and the social affairs were most pleasant. The day following the meetings was spent in an excursion to our home 100 miles south of Capri. The chartered hydrofoil got us there in two hours but the day was too short to do all the things I had in mind for our friends.

We well remember our visit to Strasbourg almost thirty years ago. The continuation of that trip to Naples proved to be a major turning point in my activities for it was then that the idea of international studies had its first expression.

We plan to return to Italy at the end of August and will stay there until late November save for a week off to go to Lugano for another 3-day symposium.

Margaret joins in sending you and your family our best wishes.

Sincerely,

Ancel Keys
