

Geneva.

Dear Annel: We were horrified to hear of your second miscarriage at Vallo, but that recovery is underway. Awful!

Here we have crises, too. Reaganomics (Quic version) has reached the Lab. - quickly & decidedly. Have you heard about the Governor Quic Cocktail? "Minnesota on - the - Rocks"! I have started

some commentary on your latest, Serum Alcohol & Longevity, which should be to you in mid December. I suspect it is not too long for the Lancet.

I hope you are back to make the following events to which you & Margaret are welcome -

Dec 9 pm. Annual
LPH Winter Party 8pm Emporium
Minnesota
