Gva, 28.8.95

Dear Henry,

I have now read your "On the Trail of Heart Attacks in Seven Countries"; let me tell you how much I enjoyed your memoirs. Of course, as most of us Keysians, I am somewhat emotional about the good old times, but the book is particularly pleasurable because of its touch of blackburnesque humour.

The book also looks very nice with the many photographs and is well documented.

With kind regards.
