Henry Blackburn, M.D.
Professor
Laboratory of Physiological Hygiene
Stadium Gate 27
University of Minnesota
Minneapolis, Minnesota 55455

18 April 74

Dear Dr. Blackburn:

The Federal Trade Commission has prepared the enclosed affidavit for Dr. Ross's signature. He and I want to be absolutely certain about the scientific allegations contained therein, especially their precise wording. We also want to make sure that the references cited are the best for each proposition.

Please review paragraphs 8-13 at your earliest convenience. Dr. Ross plans to phone you sometime next week for your input.

Thanks again for your cooperation in the egg controversy.

Sincerely,

Dolph Chianchiano
Chief, Public Policy and
Government Affairs

DC/Thl/ca

Enclosure

cc: Richard S. Ross, M.D.
