The Honorable Walter F. Mondale
Senator from Minnesota
443 Old Senate Office Building
Washington, D.C. 20510

Dear Senator Mondale:

I am hoping that you will consider terminating the B-1 bomber program or delaying it until after testing results. I am also wondering whether the campaign for the B-1 is in effect part of a campaign to produce the first prototype for eventual commercial supersonic transport.

Sincerely,

Henry Blackburn, M.D.
