

DONALD M. FRASER  
5th DISTRICT, MINNESOTA

2268 HOUSE OFFICE BUILDING  
202-225-4755

Congress of the United States  
House of Representatives

Washington, D.C. 20515

October 12, 1978

*Info  
correct*

Dr. Henry Blackburn  
Department of Physiological Hygiene  
University of Minnesota  
Stadium Gate 27  
Minneapolis, Minnesota 55455

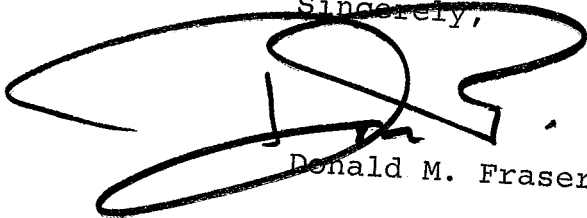

Dear Dr. ~~Blackburn~~ *Henry*:

Thanks for the telegram in support  
of H. R. 12347, the Biomedical Research  
Amendments.

I agree with you and intend to vote  
for the bill when it comes before the  
House for action sometime before the  
Congress adjourns on Saturday.

With best wishes.

Sincerely,

Donald M. Fraser

D. FRASER  
(Cong. Corresp.)

18 September 1978

Congressman Donald M. Fraser  
332 House Office Building  
Washington, D.C. 20515

Dear Don:

I am confident that you will turn these circumstances into a new and creative career. I have no concern about that. But I am sure concerned about the Democrats of Minnesota and the status of our people who have become an uncritical and uninformed public.

I hope you don't mind that I and others have suggested to Peter McGrath that you be offered a place in the Hubert Humphrey Institute for Public Affairs. It would be nice to have you around here.

I just had a visit with Burt Brown last week ~~the~~ the chap that Califano fired from the Institute of Alcohol and Mental Disease last year. He says that is no better place on earth than the Woodrow Wilson Center at the Smithsonian for the bright and thoughtful who have been ousted or defrocked.

*True*  
Cordially,

Henry Blackburn, M.D.  
Professor and Director
