Dear Henry:

I am writing to thank you for your help in the preparation of the affidavit for the FTC. With your assistance and that of Mary Winston of the AHA, we have put together a document which I think is worthy of our organization. It has been delivered to the FTC, and they have made a few minor suggestions which we are going to work on. I think I have incorporated most of the thoughts you gave me during our telephone conversations, and I hope you will be pleased with the final product which I will ask Mr. Chianchiano to send you as soon as it is in the form acceptable to the FTC.

Sincerely yours,

Dick
