Secretary to
 Dr. Ancel Keys
 Laboratory of Physiological Hygiene
 School of Public Health
 Stadium Gate 27
 Minneapolis, Minn. 55455

Dear Madam:

On February 6th Dr. Keys called me from Minneapolis to ask about the chances of obtaining the \$5,000 grant needed to organize the seminar in Makarska in September. I told him that I would not be able to give him an answer before February 14th and promised to cable to him as soon as I had some news. He hoped that I could reach him in London and said that I would receive his itinerary from you so that I could be in touch with him, preferably in London or at later stops.

Although I do not yet have an answer, I hope to have one either tomorrow or the day after and am anxious to pass it on to him. However, I have not received his itinerary. Would you be so kind as to send it to me or call me up to give his dates and addresses in London and Italy? Thank you very much.

Sincerely yours,

Florence Avitabile
