

PAUL DUDLEY WHITE, M. D.  
264 BEACON STREET  
BOSTON, MASS.

CONSULTATION BY APPOINTMENT

8 April 1966

Drs. Ancel And Margaret Keys  
Laboratory of Physiological Hygiene  
School of Public Health  
Minneapolis, Minnesota

Dear Ancel and Margaret:

Thank you for both your letters  
written on April 15th.

We certainly would love to come  
to Minnelea even if we can stay only  
the two nights. It would be nice to  
stay longer, but we probably can't.

The idea of the 2:15 train from  
Rome arriving at Battipaglia at 5:31  
sounds good and we'll try to fit in  
a flight from Geneva to Rome early  
enough to make that train as comfort-  
ably as possible.

Sincerely yours,

Paul

Later  
We find that  
we ~~in~~ can make  
that train. P.
