Dr. Florence Avitabile
International Cardiology Foundation
264 Beacon Street
Boston, Massachusetts 02116

Dear Florence:

I thought you, and perhaps P. D. W., should see the enclosed. We are badly squeezed for the Makarska Teaching Seminar. Still, I realize that money is in short supply and we shall try to make out. My real concern is that we may be unable to take some bright lads from far away where there is no local money.

Sincerely,

Ancel Keys, Chairman
