Dear Ancel:

Still on vacation but seeing my mail, I am writing in answer to your letter of July 14th to say that Ina and I do hope to come to Pioppi after a day or two of meetings in Geneva. We shall arrive if possible late on Sunday the 14th but we are not sure of transportation. How does one get there if not by private car? We probably could fly to Naples from Geneva on Sunday and we would like you to tell us about trains from Naples down, so that we can begin to make more definite plans. We would stay till late Wednesday the 17th to go to Rome that evening and back to Boston from Rome on Thursday.

It wasn't the ICF that punished you - it was the ISC and we are annoyed sometimes with the actions of the ISC. Eventually we hope that we'll simply turn our functions over as a committee of the ISC when they'll have to cooperate with themselves.

Please fix a double room at Acciaroli or Pioppi for the nights from the 14th through the 16th (three nights).

Best wishes, as always.

Sincerely yours,

Paul

P.S. Ina may not be able to come because of problems at home and so a single room would suffice, but
PDW:fa I'll write you in time if a change is necessary.
P.D.W.
