CONSULTATION BY APPOINTMENT

15 April 1963

Dr. Ancel Keys
Laboratory of Physiological Hygiene
Stadium Gate 27
Minneapolis 14, Minnesota

Dear Ancel:

Thank you for your letter of April 8.

I shall be glad to send you \$1,000
very soon from my Coronary Research Fund
at the Massachusetts General Hospital.
How do you want it and when?

Your application for a grant for
the Research Committee from the Inter-
national Cardiology Foundation must have
the approval of the Executive Committee
of the International Society of Cardiology
itself, not just the Research Committee.
Will you clarify the issue by telling me
whether the executive members to whom
you have sent copies are members of the
Executive Committee of the I.S.C. or of
your own Research Committee? If they are
of the I.S.C., that's all we need, but
I wanted to make sure of this since time
is short. As you know, the members of
the Executive Committee of the I.S.C.
are the following: Duchosal, Maddox,
Lequime, Puddu, and Keith.

I have sent the form about the
Makarska meeting to Jean Lequime.

Sincerely yours,

PDW:fa

Paul
