

Dr. Paul D. White

Page 2

1 July 1963

my European collaborators include: Roine and Karvonen from Finland, den Hartog, van Bucham and Falderup from Holland, Bidanza and Poppi from Italy, Rijlant, Denolin and Messin from Belgium, Aravanis, Dostas and Galanos from Greece, Blackburn and Taylor from Minnesota, a number of Yugoslavs, including Busina, Mahn, Ferber, Mohacek, Grgic, Djordjevic, Josipovic, Strasser and Simic, and Grant and Goldwater as representatives of U.S.P.H.S. Finally, Albert Baer and Ernest Klepetar will be on hand.

6) My best count at present is a total of 19 Committee members (not including Stamler), plus 28 non-members and an uncertain number of wives.

7) I propose now to allocate funds to fulfil requests of members for help as follows: Toor, \$400; Shaper, \$350; Prior, \$400; Taquini, \$400; Roy, \$400; Nellen, \$400; Sorour, \$400; Faddu, \$50. Morgan-Jones has requested \$220 but I hope I can persuade the Co-operative Insurance Society, Ltd., to cover this.

8) Margaret and I leave here July 20 but I shall make all arrangements so that when the \$2,500 arrives it will be credited by the University of Minnesota to the right account and the amounts noted above will be disbursed.

Dr. Fejfar is here with me in Minneapolis today. He is enthusiastic about Makarska and will be a real help there, and in other ways, for our I.S.C. interests.

Again thanks and best wishes.

Sincerely,

Ancel Keys, Chairman
Research Committee
International Society of Cardiology
