PAUL DUDLEY WHITE, M. D.
264 BEACON STREET
BOSTON, MASS.

28 June 1963

Dr. Ancel Keys
Laboratory of Physiological Hygiene
Stadium Gate 27
Minneapolis 14, Minnesota

Dear Ancel:

We finally decided, that is, Louis Katz and I decided over the phone after receiving the approval of all of the Executive Committee of the International Society of Cardiology and of the great majority of the International Cardiology Foundation, to award a sum of \$2,500 to your Research Committee for the Makarska Conference.

We would have liked to have given you the \$5,000 originally applied for, but we have very little money in the Treasury and I have compromised on that amount, which should be very helpful. We'll probably have it in your hands by the end of July.

Sincerely yours,

P.S. The official notification of this award will be sent to you during the latter part of July, together with the forms to be signed by you and by Jean Lequime. We are transferring the administrative office to Boston and the forms are being shipped up here. *It's a slow process. Bud Peters is now out of the Foundation as of July first and later Sprague will replace Louis Katz, and all the job will then be centered in Boston except for Albert Baer's committee in N.Y.C.*
