Boston, Massachusetts

Dear Paul:

Fejfar will be at Makarska with his wife. I am not sure that he will be able to clear up some of the complications in regard to the European division of W.H.O. because they are quite outside of his authority or even close contact. I am trying to learn more about the situation through other sources.

It would be well to drop a note to Dr. Ratko Buzina in Zagreb informing him of your arrival and needs for a hotel at the Jadran at Makarska (Tucepi).

This letter may arrive just in time to salute you on your birthday. All best wishes from us all.

As ever,

Ancel Keys, Director
