Dear Ansel,

As often happens I have been a-wakened a bit early by thoughts which have come belatedly but which may be useful for you to pass on to the Committee or indeed to the entire group.

One is this, namely that it may well be helpful very soon, because of the current state of the world, to arrange to have represented on either the Committee itself or on one of the new subgroups, or on one of the teams working in the field, or perhaps on all three, at least one Negro and at least one Chinese - they can of course be American or nationals of any country in the world, but of

(except Taiwan in the case of the Chinese)

course they must be able scientifically,
honorable, and personable too - there are,
I am sure plenty available if looked
for.

And also will you be so kind as
to read at dinner tonight or at some
other time when all are assembled to-
gether, including our Yugoslav hosts,
the enclosed note of appreciation which
I forgot to add last night.

~~For all you have done yourself, Angel,~~
Many thanks and best wishes.

Paul
