CONSULTATION BY APPOINTMENT

9 March 1966

Dr. and Mrs. Ancel Keys  
University of Minnesota  
School of Public Health  
Stadium Gate 27  
Minneapolis, Minnesota 55455

Dear Ancel and Margaret:

How long will you be staying in Athens for the symposium on recent advance in atherosclerosis research which runs from May 30th to the 2nd of June? Will you be in Czechoslovakia at that meeting in Sliac the week before? I am writing for one particular reason and that is to find out if you would be at your new house in Italy during the first two days of June or whether you will arrive later, because Ina and I would very much like to stop and call on you on the 1st and 2nd of June if you are going to be there then. Otherwise, we might come back from Switzerland, where we must be on the 3rd and 4th, to visit you on the 5th and 6th.

This all sounds rather complicated but this isn't the first time you and we have taken part in complicated schedules.

Hope you are all well. When will you be going abroad?

Sincerely yours,

PDW:cw
