Cong. concern.

Dr. Henry W. Blackburn
University of Minnesota
Medical Center
University of Minnesota
Minneapolis, Minnesota

Dear Dr. Blackburn:

I read in the Minneapolis Tribune today the report that our University of Minnesota medical center received a very substantial grant for heart disease research. I am very pleased, and I am particularly grateful that you will serve as national vice-chairman of the heart study.

If, at any time, my office or I can be of any assistance to you or the University medical center, I do hope that you will call upon us.

With my best wishes.

Sincerely,

Hubert H. Humphrey
