Dr. Ancel Keys
410 Groveland Avenue, No. 802
Minneapolis, MN 55403

Dear Ancel:

Enclosed please find another copy of "From Harvard to Minnesota: Keys to Our History." I hope that the copy reproduces well.

I enjoyed reading your introductory remarks for the symposium on the Mediterranean Diet.

The dietary message you have advocated is getting across to a good many segments of the American population, but many still disregard the message. I have been quite active with our local AHA and I know the message is broadcast here.

Have a pleasant summer and I sincerely hope that it is not too long before our paths cross again.

Sincerely,

A handwritten signature in cursive script, appearing to read 'Buskirk', written in dark ink.

E.R. Buskirk, Ph.D.
Professor of Applied Physiology, Emeritus

ERB/bmm
