Dr. Ancel Keys
Laboratory of Physiological Hygiene
School of Public Health
Stadium Gate 27
Minneapolis 14, Minnesota

Dear Dr. Keys:

Dr. White has asked me to send you a copy of a letter he has just written to Dr. Taylor and also the enclosed abstract and clipping concerning the work of Dr. Watkin. He wonders whether you know anything about Dr. Watkin and whether he could be used in Helsinki at the meeting on exercise, although it may be too late to include him on the program.

Sincerely yours,

Florence Avitabile
