Dear Ancel:

Just a line to thank you for  
all your pains and work for the  
conference in Helsinki.

We finally got down to brass  
tacks in the last day and I think  
discussed the subject quite ade-  
quately, although we drew no final  
conclusions. Perhaps you established  
further ideas in Karelia. How long  
did you stay there or are you still  
there?

Best wishes to you all.

Sincerely yours,

*Paul*

P.S. I am sending a copy of this letter  
to Minneapolis in case you have already  
returned.
