En route MSP-Geneva

Dear Ancel; I'm en route to the WHO Expert Group on Prevention of Coronary Heart Disease. Geoff. Rose is chair and I'm *rapporteur*, with a great assemblage of colleagues for this "definitive" report on a population strategy of CVD prevention.

We were horrified to hear of your second recent nightmare at Vallo but also that recovery is underway. Awful! [Cerebral episode with Ancel found in pajamas on road to Pioppi!]

In Minnesota we have crises, too. 'Reaganomics" (Gov. Quie version) has reached the Lab quickly and decidedly. Maybe you've heard about the new "Gov. Quie cocktail"? "Minnesota on-the-rocks!"

I have started commentary on your latest ms.: "Serum Cholesterol and Longevity," which should reach you by mid-December. Yours is a good length for Lancet.

I hope you will return for the following social events to which you and Margaret are warmly welcome:

Dec. 9 eve at 8 pm for the LPH Winter Party at the Emporium of Jazz in Mendota.

Dec 18 for the LPH retreat from 9 am-2 pm (probably at Spring Hill).

Dec. 18 for the SPH Party 3-5 pm at Coffman Union.

Dec. 23 for the LPH tea in the Stadium Library

Best, Henry
