

Dr. Robert Howard

-2-

January 6, 1970

The actual extent of my consultant services to the Center is a one hour visit to the Center between 6 and 8 p.m. each Thursday, plus occasional correspondence to secure competent physicians to supervise similar paramedical services in other cities, plus occasional advice on methods and procedures.

I am sorry my professional notice gave the impression that I was engaged in private practice. I see that it would easily be misinterpreted. Naturally, I shall try to keep you more adequately informed, but will hope that any questions about my activities might come first to me.

I believe my contribution to this development is in the best interest of the profession and the University, and that it is not in conflict with my full time status.

I trust you will concur.

Cordially,

Henry Blackburn, M. D.
