Minneapolis, MN 55455

Dear Doctor Blackburn:

Thank you and congratulations on your exceedingly fine presentation at the course at Rancho Santa Fe. Many such presentations have been barely tolerated by myself in the past, but I <sup>and</sup> the friends I made out at Rancho Santa Fe all agreed that your presentation was not only interesting and informative but fun to listen to. I told everyone it was understandable because you came from Minnesota. I am sure there is a great deal more to it than that, however.

Again, thank you for all your efforts. They were most appreciated and welcomed.

Best regards,

Phillip J. Ranheim, M.D.

bb

Dear Phil:

many thanks for your  
note. Keep in touch.

Regards,

WJ

Dear Doctor Blackburn,

Just a brief note to express my appreciation for the excellent course at Rancho Santa Fe. I know that everyone enjoyed the presentations and I felt that this was one of the best courses thus far presented,

I have found that it is this type of group inter-reaction that provides the best means for learning, and again I would like to thank you for the time and effort put forth in your presentation,

I wanted to especially express a thank you for your most superb presentation which I felt was the high light of the course. I have had the opportunity to review the information and have already had a conference in the hospital in which I reviewed this material for the benefit of all our physicians,

Thank you again and with warmest regards,

Sincerely yours,

*Benjamin L. Rosin*
