Dear Henry:

I want to thank you again for giving me a copy of your book "Plasma Lipids: optimal levels for health".

I have always been very admirative of your work in epidemiology and impressed by your qualities as a lecturer.

Since you are fluent in French, I dare enclose a couples of reprints you might be interested in.

Please give my best regards to Mrs. Blackburn and tell her to let me know if she needs any more information about French Canada.

Sincerely yours,

Jean
