Lecture 1981

Dear Henry:

Thank you for your letter of November 9, 1981 enclosing your review of The Framingham Study by Dawber. The review stimulates me to seek out the book.

For your information as you requested I am sending a copy of the paper being presented Monday, November 16 in Ann Arbor. Inasmuch as publication is undecided, I would appreciate your not quoting from or citing the paper until some decision is made about publication.

It has been a great pleasure to be in touch with you both personally and through correspondence recently. Each communication has been interesting and useful, but the only truly convulsive communication was the note indicating that you had sent my regrets to the gentleman who was speaking on the AWACS.

With warm regards,

Sincerely yours,

*Lester Breslow/sh*
