Dear Mel:

I very much enjoyed the morning with you and I am most grateful for it.

If you ever decide you would like to do something with Pacque and need an epidemiologist, I'm available.

I have made arrangements to visit Florida next spring for a few weeks consulting with the Florida Hospital in Orlando. I hope we might have another visit at that time. We will of course be happy to welcome you to Minnesota at any time.

I am enclosing a list of clinician-epidemiologist colleagues who I am sure would very much like to have your reprint on sodium/potassium at my request, if you have copies available. Alternatively, I would be happy to forward them if you sent copies to me.

Cordially,

*Henry Blackburn*

Dear Dr. Blackburn:

Thanks very much for your kind letter and for the preprint of your paper "Diet and Hypertension: Anthropology, Epidemiology and Public Health." My wife usurped it when I brought it home yesterday but I shall have my chance to read it this weekend. I am looking forward to it.

I have not yet received reprints of my article in Annual Review of Nutrition. I will send one to you as soon as I receive them.

I hope that you will come to Gainesville during your next visit to Florida. Both my wife and I would be pleased to have the opportunity to meet you.

With kindest regards to you.

Sincerely yours,

*Melvin J. Fregly*

Dear Henry:

Thank you for the manuscript on salt. I am enjoying reading it. Some of the material is new to me and quite interesting.

The outline on "Hypertension and Exercise" is gratefully received. It looks good. I am awaiting more with interest.

Thanks and best regards.

Sincerely,

  
EDWARD D. FREIS, M.D.  
Senior Medical Investigator
