Dear Henry:

I am sorry I had to leave before I had an opportunity to tell you how much I enjoyed your talk given at the University of Central Florida. It is always a great pleasure when I have the opportunity to hear you speak, as you have had a great impact upon the practice of cardiology today among physicians and among lay persons as well.

I was excited to learn that you were possibly interested in resettling in Florida in the not to distant future. If I could be of any help, I would be most happy to do so. I would very much like for you to let me know when you again plan to be in the area so that possibly we could go fishing as we talked about.

Once again, it was a real pleasure to see you.

With warmest personal regards,

-Charlie
