Mr. Lewis Cope
Minneapolis Star and Tribune
425 Portland Avenue
Minneapolis, MN. 55488

Dear Lew:

Thanks for your marvelous Sunday article on the space shuttle. I've been disappointed not to attend sessions to which I am a consultant on the space shuttle's physiological researches. You helped get me back in the picture. I am sure you had a good time doing it.

Cordially,

Henry Blackburn, M.D.
Professor and Director
