Cares - Tyroler

November 10, 1981

Herman Alfred Tyroler, M.D.
Professor, Dept. of Epidemiology
University of North Carolina
School of Public Health
Chapel Hill, NC 27514

Dear Al:

Congratulations on the new American College of Epidemiology and your role on the Board of Directors. You will hear eventually from Len Schuman or others about the merger of the Laboratory of Physiological Hygiene with the Division of Epidemiology at the time of Len Schuman's retirement in 1983. I will look forward to our assuming a more "balanced" academic undertaking and still preserving, I hope, our cross-disciplinary vigor.

Cordially,

Henry Blackburn, M.D.
Professor and Director
