Dear Sirs:

I hasten to reply to your September 3 letter received only on October 21. I would be most pleased to join such a distinguished faculty next August in Mexico, and to discuss "Nutritional Factors in the Hyperlipidemias." You are attempting to assemble one of the more remarkable collections of skilled and thoughtful people in this area, and I will be most delighted to learn from them and to participate. The week of August 23 would be preferable to the 9th for me but I can be flexible.

Cordially,

Henry Blackburn, M.D.
Professor and Director

HB:lr

bpc: Rick Ward -- Dear Rick: If you had anything to do with this, I am delighted.

bpc: J. V. Neel -- I look forward to meeting you in Mexico, and hopefully beforehand.
