THELLE

November 5, 1986

Prof. Dr. Med Dag Thelle
Institutt for samfunnsmedisin
Universitet: Tromso
9000 Tromso
Norway

Dear Dag:

It was good to get a glimpse of you in Washington. I was also glad to hear from you via Knut-Inge Klepp. I have encouraged him to apply for the seminar next summer and hope you might be one of his sponsors.

I think, in my "new role", I would very much like to stop by the seminar, following some of the activities in Finland. Jerry and Rose seem to think it is a good idea too. I would probably come the second week and may respond to a student panel on Community Strategies of Prevention. If you would also like me to consider trying to gather a little jazz band (presumably for the last Thursday night's celebration), I would be happy to do so, between contacts that you would have, or I also have, in Oslo. Please let me know.

Cordially,

Henry Blackburn, M.D.
Professor and Director
