~~Dr. Wallner?~~

Dear Dolly and Liz:

Thank you for your lovely Christmas note and the good news about your family. I also found recently Karl's wedding invitation. Nelly and my divorce has slowed communications. We wish him well and regret not responding!

Many things have happened in our lives and I am sorry that we have been so out of touch. Nelly and I were divorced in 1984. You will be pleased to hear that Nelly is happily remarried and living in St. Paul. Her address is Nelly Trocme Hewett, 25 ~~Lawrence~~ <sup>Kenwood</sup> Parkway, St. Paul, MN. (ZIP 55105)

I, too, am delightfully involved with a companion and live in a pleasant old house just one block from where Nelly and I lived. Our daughter Heidi is getting married next month and is in Veterinary practice here in town. Katia is still a cosmopolite, now an Associated Press supervisor in Seattle, and unmarried. Katia and I had a lovely climb this July in the Cascades and it was great to get back in the hills.

I run a large, complex Division of the School of Public Health and have many professional satisfactions, and am also active in jazz, playing regularly with local groups. We are about to take off on a six-month study leave to include New Orleans, Florida, South America, South Africa, and Europe.

So life has been good to us as well. It was great to hear from you and I will certainly make an effort to contact you when I get to Southern California.

Cordially,

Henry Blackburn, M.D.  
Professor and Director
