21st. Nov. 1985,

Dear Henry,

Here is testimony to your fame. The reporter got his facts a bit bent but his heart is in the right place.

You are one of the world's special people and it was a great pleasure to see you in Melbourne last month. Since my retirement five years ago I have been wandering in darkness and your paper at the Symposium provided a most rewarding guide back to the world of light. It was salutary to see how all the pieces have fallen into place. Hazel and I were very sorry that we were separated after the Government house party, we would have enjoyed talking on.

We do hope that when you come to Australia next you will be able to spare a little time to spend with us here at the seaside, (150 km east of Canberra, 300 km south of Sydney, we could drive you down from either). We could show you the most beautiful coast-line in Australia, even allowing for the Barrier Reef.

With kindest regards in the meantime,

Yours sincerely,

Ralph
