October 23, 1986

Dear Henry

This is a long overdue letter to thank you for your hospitality this past month (and part of August). My delay in writing to you was caused by the ever-present complications of local life, with law-suits against the government for dismissing us (ca 30% of the medical corps) without a penny of remuneration, deadlines to meet so that some drops of research money may become available in 1987, preparations for a big Mediterranean Congress of Chemotherapy in Cairo, where I am flying tomorrow, baptizing my grand-daughter Christine (Cookie's daughter), etc., etc.

Despite these intricate and daily meanderings I managed to write to David and Peter about some additional minor data required for the respiratory paper, which were suggested by Dr F.E. Speizer of Harvard, a respiratory statistician who worked with R. Peto, C.M. Fletcher, Ian Hopper, etc in Oxford and now works in a longitudinal study
