Dear Bill:

I am happy to hear about the dinner in your honor next week. I will not be able to attend but send my best wishes. It may be that Fred Epstein and Rick Shekelle and I are at last beginning to get on the ball in regard to a history of cardiovascular epidemiology including the AHA Council. In which case, we hope you will be available for interviews. There is a lot of rich history that you have witnessed and documented. I hope you will be able to copy relevant records to keep in case you pursue this for yourself. When we get our act together we will surely need your collaboration. Have a good evening on the 26th.

Cordially,

Henry Blackburn
