Dr. R.W.K. Gee
Regional Adviser in Noncommunicable Diseases
World Health Organization
United Nations Avenue
PO Box 2932
Manila 2801, Philippines

Dear Dr. Gee

I am terribly sorry to be so late in responding to your kind query about my availability for consulting in Beijing this September. My administrative and teaching duties for that period will be much too heavy for me to consider conducting such a seminar. I am terribly disappointed.

The only people I know of who could most effectively combine those three subjects, that is 1) principles of epidemiology, 2) cardiovascular disease survey methods and 3) ECG Minnesota coding system, would be Ronald Prineas of this Division, same address as mine, and Geoffrey Rose of the London School of Hygiene.

Cordially,

Henry Blackburn (nb)

Henry Blackburn, M.D.
Professor and Director
