Harry and Marian Ungerleider
200 North Dale Avenue
Apartment 137
Anaheim, CA 92801

Dear Harry and Marian:

It was marvelous to hear from you and I'm sorry that I haven't sent you my newest address, (1525 Kaltern Lane, Minneapolis, MN 55416). My new wife and I are now suburbanites, with a new house and new mortgage as if I were 30 years old! I lost the family house (and half of my retirement) with my divorce from Nelly. Nelly is happily remarried and so am I and so we're all in good shapel

For the first time in maybe 10 years, I went to ALIMDA in October to give a little talk. There I was amazed, amused and delighted to see many old friends, Dick and Yvonne Gubner in particular. I still go once a week to my little insurance company in St. Paul, MSI, and am in daily touch with them by Fax. It's interesting to keep a finger in.

I am slowing down a bit in productivity with my new family life but am still pretty much "in there" with a large department of 40 faculty and 600 employees and development of new enterprises in cancer, infectious disease and health behavior along with our still very solid cardiovascular section. I am looking for "a way out" but haven't found yet what I'm going to do when I grow up.

I stay active musically and am taking the Preservation Hall Band to the 2nd International Conference on Preventive Cardiology in Washington next June, which will be great fun.

I'm sorry I don't get to southern California, not even making it to American Heart last year. But I won't fail to look you up when I do come that way. It's marvelous to hear that you two are together and enjoying life.

Cordially,

Henry Blackburn, MD
Professor and Director
