Dear Henry,

Thank you for sending me the announcement concerning your Division of Epidemiology. You are certainly to be congratulated on assembling such an outstanding group of young faculty and on the impressive output evidenced in your communication. We continue to struggle along with our five FTE but manage, somehow, to deliver a credible educational effort and, I believe, a not inconsiderable volume of research. At any rate, it would certainly be nice to have a visit from you the next time you are in the Bay Area.

With warm personal regards, I remain

Sincerely,

*Warren*
