Dear Margaret:

The way you slipped away into the distance didn't give us an opportunity to recognize your long and effective contribution to the laboratory and to the Division of Epidemiology. First from secretary to the boss, to librarian at the end, yours is a distinguished career. We hope you're enjoying well-earned diversions and hope we can count on you for an occasional consultation. Please let us know if we can help in any other way.

Cordially,

Henry Blackburn, M.D.  
Professor and Director
