Dear Henry:

I just returned from a year away to find your letter of February 11! For reasons that are not clear, the letter went into a "wait until he returns" pile.

In case you have forgotten, you were writing about the search for a behavioral scientist. Are you still searching?

Again, sorry for the mishap.

Best regards,

S. Leonard Syme, PhD  
Professor of Epidemiology

See - Thanks!  
Search closed but almost not fully happy in the results. I'd really like an epidemiologist. The funds derive from a large combination with epi. or public health addictive behavior scientist. I would appreciate a call before we finalize the enclosed.
