Dr. Mike Osterholm
Minnesota Department of Health
Acute Disease Epidemiology
717 SE Delaware Street
Minneapolis, MN 55440

✓ y.a. 5-13-88

Dear Mike:

Note the enclosed letter from Dan Granoff that indicates he is committing himself to stay at St. Louis. We need to talk.

You have mentioned a number of times your younger epi. colleagues since their arrival. Shouldn't we have them set up for joint clinical appointments?

Because of your heavy workload, it would be nice if Sandra Melnick could relate to them, in your absence, for collaborations on Infectious Disease projects. I am sure you will be supportive of this. Good Swimming!

Cordially,

Henry Blackburn, M.D.
Professor and Director
