Dear Mr. Hansen:

This is written at Mr. Rowell's request following your enquiry as to Mr. Rowell's status as a graduate student.

Mr. Rowell is a graduate student in this department. He has passed his preliminary examinations and his principal obligation to the graduate school is the completion of his thesis. He is engaged in part-time teaching in one 4-credit course and is spending the balance of his time doing experimental work for his thesis.

His graduate work has reached an advanced stage and the distribution of his time is no different from other full time students who have progressed to a similar point.

Sincerely yours,

Henry L. Taylor,  
Professor
