

PAUL DUDLEY WHITE, M.D.

264 BEACON STREET

BOSTON, MASS.

CONSULTATION BY APPOINTMENT

May 26, 1960

Dr. Henry L. Taylor,  
University of Minnesota  
Minneapolis 14, Minn.

Dear Henry:-

Thanks very much indeed for your  
new report of the Railroad employees.

Table 3 is, of course, especially  
interesting and it does look as if  
physical activity, therefore, may  
play something of a role. Of course,  
other factors must be considered too.

Do keep me closely <sup>let me know</sup> posted about  
further developments and when I may begin  
to refer to these figures in my talks ~~and~~  
discussions.

*Best wishes.*

Sincerely yours,

PDW:D

*Paul J. White*
