Dr. George Meneeley
The Department of Medicine, The
Medical School
Vanderbilt University
Nashville, Tennessee

Dear George:

The enclosed is a copy of a letter which was
the reaction of one physician to a recent diatribe by one
of your faculty members.

I am inclined to agree that the paper referred
to can hardly be considered a contribution to the solution
of a problem we are all making a genuine attempt to unravel.

Sincerely yours,

Henry L. Taylor
